Stanley Yang

guangyg@cs.washington.edu | linkedin.com/in/stanley-yang-9457b7252 | az15240.github.io

SKILLS

- **Programming Languages:** Java, C/C++, Python, JavaScript/TypeScript, SQL, OCaml, Racket, MATLAB, Excel
- **Frameworks:** JUnit, ReactJS, PyTorch, Java Spark, Java Swing, NumPy, MVC, Figma, Flutter, DuckDB

EDUCATION

University of Washington, Seattle, WA — Expected Graduation: June 2025

Bachelor of Science in Computer Science, Major GPA 3.92/4.00

- Relevant Courses: Software Design, Data Structure, Database, Machine Learning, Two-Year Honor Math Series
- UW ICPC Winter Programming Contest 2024 - Second Place

WORK EXPERIENCES

Teaching Assistant, Seattle, WA — Mar. 2023 – Jun. 2024

Teaching Assistant in CSE 341 & CSE 413 Programming Languages for four quarters

- Led course on functional programming, language design and **interpreter construction**, using OCaml and Racket
- Conducted weekly quiz sections and held office hours for **100+ students**, addressing diverse learning needs
- Led **infrastructure development** and crafted **autograder scripts** with **700+ lines of comprehensive test cases**
- Assisted professors in homework design, established rubrics, and coordinated TA grading for **600+ assignments**

Database Research Assistant, Seattle, WA — Jun. 2023 – Aug. 2023

UW PLSE (Programming Languages and Software Engineering) Lab

- Developed **SQLite** scripts to streamline importing and testing process on datasets with **400+ million data points**
- Conducted **data preprocessing** by parsing and cleaning raw data to address various complex formatting issues
- Expertly executed **16,000+ view scripts and complex queries** on bulk data, ensuring scalability and robustness

PERSONAL PROJECT

Primitive Tagging for Everyday Objects Research, Seattle, WA — Jan. 2024 – Jun. 2024

- Developed user-in-the-loop semi-automatic methods for identifying **3D geometric primitives** on an input mesh
- Enhanced **user interface** for intuitive region selection and primitive type specification, benefiting novice users
- Implemented advanced functionality to crop user-selected mesh data, optimizing for reduced mesh generation
- Utilized **differential 3D learning** techniques for automatic optimization of primitive shape parameters on **PyTorch**

CaCL (Change and Chance Language) Interpreter & Compiler Project, Seattle, WA — Jan. 2024 – Mar. 2024

- Implemented parsing, type checking, annotations, template expansions, mutations, and diverse data type support
- Authored **1300+ lines of tests**, thoroughly validating interpreter functionalities and error-handling mechanisms.
- Employed **compiler rewrite strategies** to optimize code dependencies and **boost compilation speed**
- Innovative features like parallel let, short-circuiting, and higher-order functions **augment language capabilities**

Campus Path Finder, Seattle, WA — Feb. 2023 – Mar. 2023

- Developed a **generic ADT** and applied it to a campus map using **Java**, tested with **5000 lines** of **JUnit tests**
- Designed a **web app** and utilized **React** and **Java Spark framework** to create a user-friendly **GUI**
- Analyzed a **database** comprising **5000+** campus coordinates for navigation between **52** buildings
- Applied **MVC (Model-View-Controller) pattern** for GUI and employed **Dijkstra's algorithm** for navigation

"Buddies" App at DubHacks '22 Hackathon, Seattle, WA — Oct. 2022

- Led a team of four as the **Project Manager** and **UI/UX Designer** for the "Buddies" App using **Flutter framework**
- Orchestrated team brainstorming sessions, managed project timelines, and designed the **GUI** using **Figma**
- Showcased our project through a video demonstration and live presentation to a panel of judges

EXTRACURRICULAR/COMMUNITY INVOLVEMENT

Student Volunteer in ACM SIGMOD conference 2023, Bellevue, WA — Jun. 2023

- Volunteered for **six research and tutorial sessions**, assisted **500+ leading scholars in the database field**
- Supported session chairs and presenters in preparing session slides and videos, aiding conference proceedings
- Facilitated prompt audio issue resolution by liaising with the technical team for a cohesive audio experience
